## About Me

Creative UI/UX Designer and Front-End Developer specializing in user-centered, responsive interfaces. Skilled in delivering intuitive, visually engaging digital experiences through clean design and code.

## Projects

### ● Billing & Software

- Designed a billing and software management system with a user-friendly and intuitive interface. Emphasized usability, clear workflows, and responsive design for better user experience. Implemented using HTML, CSS, JavaScript, and Java

### ● Crime Hotspots (Data Science)

- Analyzed crime data to identify high-risk locations using data science techniques. The project helps visualize crime hotspots and supports data-driven decision-making for public safety.

## Experience

### ● JBB SOFTECH PVT LTD

#### UI/UX DESIGNER (2024-TILL NOW)

- Creative UI/UX Designer focused on designing intuitive, user-centered digital experiences. Skilled in wireframing, prototyping, and visual design to deliver clean and engaging interfaces.
